PEACHTREE MANUFACTURING TRAINING OUTLINE

Is your inventory out of control? Are you tracking your inventory in excel or in another application outside of Peachtree? Would you like to know profitability by customer by item?

Then attend this Peachtree Software Manufacturing Training Class. This 1/2 day course is geared toward current Peachtree users who wish a more detailed, behind the scenes, understanding of the programs capabilities in the area of manufacturing. Learn how to properly manage your inventory, set up items, categories, units of measure, assemblies, work tickets and have Peachtree for Manufacturing help manage your purchase order processes. See how to do track quantity on hand and reconcile inventory to your P&L to help you determine your gross profit margins and turns. Walk thru creating some basic set-up features, creating transactions and other advanced features most often utilized in the manufacturing vertical for Peachtree and more. Bring your specific company questions to class and have them answered.

This class is taught by an experienced certified trainer. There will be a maximum of 4 students per class and are hands on 1 person per PC. All classes are CPE accredited. Students will receive a certificate of completion.
